

Chromatic[™]

LED MOVING HEAD SERIES

cm30w

The Chromatic[™]cm30w is a professional LED moving head spot capable of 11,000+ Lumens and is the most affordable, value-packed moving head in its class. Loaded with a high-output 30 watt LED lamp and ultra-smooth 16 bit pan/tilt movements, prove this fixture was designed for the pros! This moving head has an amazingly fast pan/tilt response due to its low-mass and short yoke. The 12° lens can be manually focused to accentuate the laser-cut gobos. Loaded with 7 saturated dichroic color filters and 6 laser-cut gobos, this light can produce an impressive array of effects. For small to medium size stages, the cm30w will perform flawlessly.

The Chromatic[™]cm30w will operate as a master or slave with additional Chromatic[™]cm30w moving heads. No controller needed, simply plug it in and turn it on. This moving head will prove to be a very impressive addition to your digital light show. The Chromatic[™] cm30w is the most value-packed, affordable pro-level LED moving head in its class. The perfect light for DJs, musicians, night clubs, and event producers!
