

MiniMover[™] Spot

LED MOVING HEAD SERIES

MiniMover[™] Spot

The **MiniMover[™]Spot** is a compact, professional LED moving head. This light proves that big things can come in small packages. It will actually fit in your hand and weighs less than 9 lbs. Incredibly bright for its size, its loaded with RGB LEDs (15 watts total) to produce more than 16 million colors. The 12° beam can be manually focused to create tight, crisp beams of light. Due to its low-mass and short yoke, this moving head has an amazingly fast pan/tilt response with ultra smooth movements with 16 bit precision.

The **MiniMover[™]Spot** can operate as a master or slave with additional **MiniMover[™]Spot** moving heads. No controller needed, simply plug it in and turn it on. Its equipped with many of the same features as other moving heads that cost 2 to 3 times as much. The **MiniMover[™]Spot** will prove to be a very impressive addition to your digital light show. The perfect light for DJs, musicians, night clubs, and event producers!
